

USER MANUAL

Manual translated

It applies to tables and benches made from different types of wood and epoxy resin, designed by the manufacturer or the customer. Goods covered by the manual were produced StarWood Adrian Starowicz with headquarters in Ząbki, 11 Listopada 55; NIP 1132362858.

Safety:

If the contract otherwise stated goods are delivered to the customer assembled. Before use, please read the following instructions. The manufacturer is not responsible for damage and injuries resulting from improper installation and operation. Be careful when moving a table or bench, they are heavy. Neither the article nor its packaging are not toys and should get rid of them in a suitable manner. Children should not deal with maintenance and cleaning tables and benches without proper supervision.

How to use:

Furniture **StarWoodEpoxy** are designed for normal home use. Enjoy using furniture for its intended purpose.

Remember please, some necessary things:

- ✓ Furniture are intended for use inside buildings, rooms where the temperature is 17 to 28° C and relative humidity 40 to 65%
- ✓ Furniture should be protected from direct sunlight and moisture
- ✓ Tables should not be placed closer than 1 m from active heat sources such as radiators, stoves, fireplaces, etc.
- ✓ The tables should be placed on a hard, flat surface

Some things on the table should not do, remember to:

- ✓ Not to enter the table, sit on the table, do not put on the chairs or other heavy objects
- ✓ Do not iron or dry wet clothes on the table

Whatever you do on the table, remember that:

- ✓ Sharp, rough or heavy objects may cause damage, dents, scratches (note the claws of pets)
- ✓ Long term, topical application of force may cause deformation of the furniture parts
- ✓ The surface of the table should be protected from direct exposure to heat, moisture and corrosive substances (hot dishes, irons, lotions, alcohol, nail polish removers, solvents, etc.)
- ✓ It is unacceptable to subject the table to long-term exposure to liquids (e.g. water, tea, alcohol, excessive amount of liquid during maintenance) because it may lead to irreversible damage to the surface

CLEANING AND MAINTENANCE

- ✓ You bought this piece of furniture probably because you appreciate the unique nature of wood. Furniture made of natural materials is delicate, take care of them.
- ✓ On the surfaces of tables with wood finished oils with the addition of wax after some time may appear: local roughness, dull places, discoloration
- ✓ Take care of the table by covering it with a suitable agent (for example: Osmo Top-Worktop Oil or RMC Oil Plus 2C) 1-2 times a year. This measure is not attached to the purchased product
- ✓ The manufacturer is not responsible for defects resulting from the lack of maintenance of the product and they are not subject to complaint
